

2004 IN REVIEW

This issue features statistics from the past Grand Prix year, utilizing classes which met Grand Prix requirements, whether or not these classes were included in the USET Computer Rankings. Nations Cup classes were excluded. Only US Citizens and riders living in or competing regularly in North America have been included in the statistics.

2005 Changes to the Computer Ranking List

Beginning January 1, 2005

The name of the List will change to *USEF Show Jumping Computer Ranking List, which will operate under a license granted by the USET Foundation to the United States Equestrian Federation; Also beginning January 1, 2005, the International Ranking List (which uses only results from FEI competitions), will be used for selection for teams and individuals in international competitions, and The National Computer Ranking List, which, as always, uses results from national and international competitions, will continue to be published each week a class takes place.
