

USEF DRIVER TRAINING LONG LIST CRITERIA

To be eligible for the United States Equestrian Federation's Driver Training Long List, drivers must be citizens of the United States, and High Performance Members in good standing the USEF. Drivers residing in the U.S. who are currently in the process of obtaining citizenship may apply to be included on the Long List, but they will not be eligible for selection to represent the U.S. until they become U.S. citizens.

The Driver Training Long List, which includes single, pair and four-in-hand horses/ponies and drivers is drawn up by the USEF on the basis of a driver/horse/pony combination achieving a total of 175 penalties or less for singles and pairs, and a total of 200 penalties or less for four-in-hands in a national competition at the advanced level in the U.S.; a European CAI; or a national European competition (for which the Driving HP Committee has given approval). This qualifying score must have been achieved in any of the previous two calendar years which indicates that those driver/horse/pony combinations are the strongest candidates for future teams. It is not necessary to use the same horses/ponies at each competition, but in order for a driver/horse/pony combination to be Long Listed, at least 50% of the listed horses/ponies must have a proven record with that driver in all three phases.

Long Listed driver/horse/pony combinations are eligible for USEF Training Programs and consideration to compete abroad.
