Rule Change Intent

The committee would like to remove the word "Western" from the description of a cavesson, for allowed equipment, as a "Western Cavesson" is not a term used or style sold or easily available in the industry for exhibitors to find.

## SUBCHAPTER WD-5 APPOINTMENTS

### WD121 Tack

#### 1. Bridles:

- a. Any Western type headstall must be used.
- b. A Western cavesson (braided or plain), or pencil bosal with space for two fingers placed between the cavesson and the jowl of the horse is allowed. The inside of the noseband must be smooth and free of any metal, other than the buckle.
