Rule Change Intent

Submitting course diagrams after the show doesn't help competitors at the show. However, identifying the heights and spreads on the diagrams ahead of the class will point out before the class starts which fences may not be set according to the correct specifications.

3. Course Guidelines

a. General for all ages:

~~6. Certificate of Compliance: A course plan showing the actual heights and spreads of all the fences, signed by the Course Designer and the Senior Judge, must be given to the Senior Steward no later than the conclusion of competition on the same day the class is held to include with his report to the Federation.~~

JP132 Posting and Walking Courses

2. Course Plan. The plan or diagram of the course, including the Speed, Time Allowed, length of course, start and finish, and jump-off course, must show the obstacles which must be jumped with the order indicated by number. Apart from this, unless designated by the course designer by the use of a solid line between obstacles on the course plan, the rider is not bound to follow a compulsory track. An arrow is used to indicate the direction in which each obstacle must be jumped. Closed combinations and option fences must be clearly marked. For all classes of \$25,000 or more **and classes restricted to five, six, and seven year olds**, the posted course plan must include the height and spread of each obstacle.
