### BEST MOVEMENT PATTERN

Horses enter the arena through the in gate at a trot and trot counterclockwise to Position A, come down to a walk and proceed at the walk to Position B. After all horses are in the arena and lined up, each horse will trot straight down the center of the arena to the opposite end, come down to a walk turn right (clockwise) and walk around the arena to Position C. After the last horse has trotted, the horses will walk on the rail to the right, (clockwise), single file to Position A. Each horse will then trot straight down the center and turn to the left (counterclockwise) and walk back to Position A.

After all horses have been reviewed individually, they will be asked to walk on the rail until requested to stop and maintain position.
