

2024 GUIDELINES FOR COMBINING AND DIVIDING HUNTER SECTIONS

*Updated effective 12/1/2023

General Information about Combining and Dividing (HU159)

- Numbers for combining/dividing are based on the first Over Fences class in the section
- A section **may not** be divided unless there are 30 or more entries, unless the section rules require the section to be split at a certain number
 - If a section is offered in the prize list as combined and the rules for that specific section do not **require** that section be split at a certain number, it may **not** be split with fewer than 30 entries
- A section **must** be divided if there are 50 or more entries
- When a section is split, the prize money offered in each divided section must be the same as offered in the original section.

High Performance Hunter

- Number to hold separate sections: four (4). If four compete and only three complete, points will be awarded as per GR 1113.
- The High Performance Hunter section **may** be divided once 30 or more horses have competed in the first over fences class and subsequent classes **may** be divided once 12 horses have competed in each class
- If there are 50 or more entries in a section, it **must** be divided.
- If there are fewer than three entries, the High Performance section **must** be combined with either the Performance Hunter 3'6" section or Green Hunter 3'9" (or Green Hunter 3'6"/3'9" if offered combined), but it may not be combined with both.
- If the High Performance Hunter is combined with Green Hunter 3'9" and there are still fewer than 3 entries, it must be further combined with the Green Hunter 3'6".
 - When combining the High Performance with the Performance Hunter 3'6" or the Green Hunter 3'9", the new combined section will use the lower amount for entry fees and prize money originally offered for each section.
- If the High Performance Hunter section is combined with the Performance Hunter 3'6" section and there are still fewer than 3 entries, it must be further combined with the Performance 3'3"
- When High Performance Hunter is combined with Performance Hunter 3'6" or Green Hunter 3'9", the combined sections must offer the same number of classes.
- If there are fewer than 30 entries in the under saddle class in a section using the California split, it is not required to be split in order to award multiple section championships.
- When a random split is used, multiple Championships may only be awarded if a minimum of two (2) over fences and one (1) under saddle class are held per section.

Performance Hunter 3'6"

- Number to hold separate sections: four (4). If four compete and only three complete, points will be awarded as per GR 1113.
- Height sections (3'3"/3'6") **must** be held separately if there are four or more entries in each section
- If there are fewer than four entries, the section **must** be combined with the Performance Hunter 3'3"
- The Performance Hunter section **may** be divided after 30 or more horses have competed in the first over fences class and subsequent classes **may** be divided once 12 horses have competed in each class.
- If there are fewer than three entries in either the 3'6" or the combined 3'6"/3'3" section, it **may** be combined with the High Performance Hunter section unless the High Performance section has already been combined with the Green Hunter sections.
- If there are 50 or more entries in a section, it **must** be divided.
- There is no requirement for the method of dividing the Performance Working Hunter section; classes may be split using the California split **or** a random split.
- If there are fewer than 30 entries in the under saddle class in a section using the California split, it is not required to be split in order to award multiple section championships.
