Rule Change Intent

This clarification adds the full range of fence heights into the title to match the class definition so that competitors know what to expect. Otherwise, they might think that by entering a class named “1.10 Young Jumper” can only have fence heights of 1.10m but the rule allows a range of 1.10-1.15m. This is how the Junior/Amateur Jumper classes are named as well. Additionally, JP 117.3c and 4c just changes the word “fences” to “courses” to keep it consistent with the other height categories in the Jumper Chapter. The speed for the lowest two height categories was mistakenly entered as 300 m/m but this is incorrect. Clarification effective asap or no later than April 1, 2026.
