RE: Planned Selection Methods, Eligibility Requirements and FEI Certificates of Capability

Dear U.S. Jumping Athletes and Owners –

Please see the below details outlining the anticipated selection methods for the Jumping Team for 2022 World Championship to be held in Herning, Denmark August 6-14, 2022.

Short List Selection: It is proposed that ten (10) athletes will be selected for the 2022 World Championship U.S. Show Jumping Short List in April 2022 according to the following methods:

Rolex/USEF Show Jumping Ranking List:

1. Rolex/USEF Show Jumping “Average Ranking List” – this is a ranking list of the athlete’s average Rolex/USEF Show Jumping Ranking List points (includes the points previously earned) from the lists dated July 9, 2021 list through December 24, 2021.

It is proposed that the four (4) highest ranked athletes from the “Average Ranking List” will be named to the Short List in December 2021.

This list will be published monthly on www.usequestrian.org/jumping.

2. Rolex/USEF Show Jumping Ranking “Horse List” – this is the ranking list of the horse/athlete combinations’ points.

It is planned that the “Horse List” dated April 8, 2022 will be used to select at least three (3) athletes who are ranked highest on the April 8, 2022 Horse List and who have not already been named to the Short List. The Horse List is published weekly and can be found [HERE](#).

2022 World Cup Final: It is proposed that the highest placed U.S. athlete in the Final Overall Standings for the 2022 World Cup Final in Leipzig, Germany who has not already been selected to the Short List will be named to the Short List provided that he finished in the top 10 of the Final Overall Standings from the 2022 World Cup Final.

If the highest placed U.S. athlete in the Final Overall Standings of the 2022 World Cup Final, who has not already been selected to the Short List, is not within the top 10 of the Final Overall Standings, the selection for this Short List position will be based on the April 8, 2022 Rolex/USEF Show Jumping Ranking “Horse List”.

Discretionary Selection: It is proposed that the Chef d'Equipe in consultation with the Advisors will have the discretion to recommend up to two (2) athletes to the Short List. The Chef d'Equipe may utilize his discretionary selection positions at any time but by no later than April 13, 2022.

In their evaluation of athletes and horses for discretionary selection purposes, the Chef d'Equipe and Advisors will take into account the following criteria (in no priority order):

1. Current ability of the athlete and horse to meet the standards of the Event.
2. Overall performance of the athlete and horse with emphasis on:
 - a) 2021/2022 Nations Cup and Grand Prix Show Jumping competitions;
 - b) The ability to compete without incurring jumping and/or time penalties at the highest level of course difficulty, as well as a record of having done so on a consistent basis;
 - c) Previous international experience, including the demonstrated ability of the horse and/or athlete to succeed in FEI Grand Prix Show Jumping competitions within the past 2-3 years;
 - d) The ability to contribute to winning a team medal;
 - e) A record of successfully jumping over a variety of types of international level courses, and in particular over courses that included a water jump and tested for carefulness, scope and rideability;
 - f) The ability to jump international level courses within the Time Allowed;
 - g) The ability to maintain peak form throughout multiple round events; and
 - h) A statistical record of consistently producing low-fault rounds with a minimum of high fault scores over difficult courses.
3. The fitness and soundness of the horse.
4. The fitness of the athlete to maximize the performance of the horse.

The Short List will not be named in ranked order but in alphabetical order by athlete's last name.

Team Selection: It is proposed that the Short Listed athletes and horses compete in CSI05*/CSI5* events and that the Chef d'Equipe in consultation with the Advisors will recommend the Team of five athletes and horses based on similar criteria outlined in the Discretionary Selection above.
