Requests for use of Intermediate Test C*

The 2026 USEF Intermediate C Dressage Test, which is written for use in a 20x40 arena, may only be used for Eventing competitions that demonstrate a topographical or logistical hardship which renders the venue unable to assemble a 20x60 arena in the designated competition area.

Organizers who wish to use Intermediate Test C for their competition must submit the request to the USEF in writing via email to eventingcalendar@usef.org 90 days prior to the start date of the competition. The request must include a description of the competition area that the Dressage Tests will be held in and the reasoning why it is not possible to assemble a 20x60 arena in the area.

Staff will reach out to the Technical Delegate of the previous year's competition to confirm the details of the request. In the case of requests from new competitions, Staff will work with the OC to obtain further details. The request will be presented to the USEF Calendar Working Group for a recommendation to be forwarded to the Eventing Sport Committee. Permission to use Intermediate Test C will be communicated to the Organizer via email by USEF staff within 30 days of receipt of the request.

Late requests will be handled on a case-by-case basis and are not guaranteed to receive approval prior to the start of the competition.
