Re: Anticipated Selection Methods for the 2025 FEI Pan American Endurance Championships

This preliminary information is provided to assist you with your competition planning and is subject to change. Please remember that this information is based upon the recommendations of the USEF Endurance Sport Committee and is subject to approval by the USEF Board of Directors or USEF Executive Committee and therefore subject to change upon the approval of the final Selection Procedures by the USEF Board of Directors or USEF Executive Committee.

The 2025 FEI Pan American Endurance Championships (Championships) location and dates are expected to be announced by the FEI by July 2023.

Selection Methodology: Please be advised that the proposed Selection Period for the 2025 U.S. Endurance Pan American Team selection process will begin on September 1, 2023 and is anticipated to end June 2, 2025 (subject to confirmation of the Championships dates). Please note that Selection Events are defined as any single day Endurance Event held at 120km or longer that is FEI sanctioned and/or USEF Licensed and has been designated by the Athlete in advance in accordance with the details below. A competition is not considered a Selection Event until USEF confirms that the designation has been received before the deadline and it meets the requirements for a Selection Event for the Athlete/Horse Combination.

It is anticipated that the Athlete/Horse combinations named to the U.S. Endurance Team for the Championship will be based on the Selection Ranking Formula described in detail within Attachment A. In order to be included on the Ranking List, Athlete/Horse Combinations must designate in writing to the USEF Director of Endurance at least one (1) and no more than three (3) Selection Events during the Selection Period at least fourteen (14) days prior to the published start of the competition.

Of these designated Selection Events, the Athlete/Horse Combination must successfully complete at least one designated Selection Event at least 300 radial miles from the Athlete's residence. The Athlete's residence will be recorded per their USEF membership information on September 1, 2023. Changes to an Athlete's residence during the Selection Period must be received and approved via email by the USEF Director of Endurance prior to making the change. The Athlete/Horse Combination's two (2) top results from Designated Selection Events, will be used to determine the points utilized for the Ranking List.

It is anticipated that the U.S. will have the opportunity to send two Teams (one Senior Team and one Young Rider Team). If this is the case, the selection for each Team will be separate from one another.

NOTE: Failure to successfully complete one designated Selection Event of at least three hundred miles from the Athlete's residence will result in the Athlete/Horse Combination neither being ranked nor considered for selection.

NOTE: If an Athlete designates a Selection Event and crosses the start line but does not complete the competition, the Selection Event will still count as one of the maximum three permitted Selection Events. If an Athlete designates a Selection Event but does not cross the start line at the competition, the Selection Event will not count as one of the maximum three permitted Selection Events.

NOTE: For purposes of this selection memo, the definition of complete is to finish all phases of the competition and pass the final veterinary inspection at the competition without receiving a failure to qualify (includes elimination), disqualification, retirement, rider option following the combination crossing the start line (does not include withdrawal at or prior to the first pre-ride inspection. Finished Not Ranked (FNR) is considered a completion.

JR/YR Division will not count as Selection Events for purposes of qualifying for Team competing in the Senior Division of a Championship. No proxy riders permitted.

Additional selection criteria may be added in the full Selection Procedures.

Veterinary Examination: The 2025 U.S. Endurance Team horses will be required to pass at least one (1) USEF designated Team veterinary examination. Details to be confirmed in 2025.

FEI Qualifying: The Athlete, Horse owner, and Horse must comply with FEI Rules for the Championship, including but not limited to the FEI Qualifying Requirements, which can be found on the FEI Website prior to the start of the Championship.

Funding: The availability of funding is subject to confirmation of the 2025 budget.

Questions and Feedback: If you have any questions or feedback on the full Selection Procedures prior to their approval of the above information, please do not hesitate to contact Steven Morrissey, Managing Director of Sport Logistics & Non-Olympic Disciplines, at smorrissey@usef.org.
